To Whom It May Concern,

I am pleased to express my support for the proposal by **Niburu London and Flourishing Foundations CIC** to transform the former Silver Street building into a vibrant, inclusive community wellbeing and creative centre.

This exciting initiative offers an opportunity to preserve an important historic building in the heart of Enfield Town while creating a welcoming, accessible space for local people, organisations and businesses.

The proposed centre would bring together a range of activities and opportunities, including wellbeing programmes, creative arts, music, youth activities, community events and spaces for local organisations to collaborate.
